

Mainstay "This Could Be"

Visit "[This Could Be](#)" on MotoLyrics.com

I'm giving weight to circumstance
You'd swear I'm hopeless
This time just isn't like the last
I said that last time, last time too

This could be, this could be over
The summer's almost gone
This could be history, it's over
The clouds are breaking now

All that is separating us, years or minutes
Some days I can't wait for the end
(Some days I can't wait for the end)
Perspectives changing, changing again

This could be, this could be over
The summer's almost gone
This could be history, it's over
The clouds are breaking now

And all of the looks that you
Keep on giving me are killing me
And some of the words I say
Are so naive, forgive me

I'm giving weight to circumstance
You'd swear I'm hopeless

This could be, this could be over
The summer's almost gone
This could be history, it's over
The clouds are breaking now, hey
This could be, this could be over
