Hear the beating heart
Drifting drifting
Hear the beating heart
Searching for love
Hear the beating heart
Drifting in silence
It echoes like circles
Around your heart

Show me the magic door
Show me the silver cloud
Open your heart
Let it fall into place
Show me the circle's edge

I hear the beating heart
Is drifting is drifting
I hear the beating heart
Searching for love
I hear the beating heart
Is drifting in silence
It echoes Around your heart
