Gently reach the blossom
Part the leaves and journey on
Don't be afraid, seas are deep
Stay close to me
Picture ships full of treasures
Stormy weather, warning clouds
Don't be afraid, oceans are wide
Feel our time is precious

Fol la low ro fol la low
Promising that you turn to me
Side by side, arm in arm
My love is true

Misty eyed adventures
Frame of thought, be brave and bold
Don't be afraid, birds will sing
Always for you
Springtime days will grow longer
Building castles happy and sad
Don't be afraid, years will pass
Feel our love is endless

Fol la low ro fol la low
Promising that you turn to me
Side by side, arm in arm
My love is true

Echo sound of raindrops call
Echo sound of raindrops fall
Never fear, I'm there when you fall
Echo sound of raindrops fall
Side by side, hand in hand
Never fear, I'm there when you call
My love is true
Side by side, hand in hand
My love is true
