Fear not the stillness  
Will a gentle voice guide me outside this frame?  
Sweep stars around us  
Now the flowerless trees, blooming carefree  
Wonderful days, wonderful life  
Wonderful life with love

Chorus:

Faded rain from where I stand  
A wasted life I had on my hands  
Down the scented ways I did stray  
But I'm weak, don't let me go  
I found Your love inside my heart  
When my world was falling apart  
Your golden breath took darkness away  
If I ask, You won't let me go

Light me a candle  
Will the flicker grow, reach within my soul?  
Sweet streams are melting  
No more broken games now for me to play  
Wonderful ways, wonderful life  
Wonderful life with love

(Chorus twice)
