# "Anywhere But Here"

Visit "[Anywhere But Here](#)" on MotoLyrics.com

Tell me we're in this together cause I've lost it so many  
times  
To people who never mattered, and after all this time it  
came to you

So go and light the way  
Light the way so bright that I've been found in your  
arms

Wherever you go, I'll be waiting here  
Anywhere  
With my heart in the palm of my hands  
Anywhere but here

Tell me you're not just like some other now  
Telling me goodbye in seven days  
Counting pointless use of hours just to make,  
Just to try and make the time, the time go by

So go and light the way  
Light the way so bright that I've been found in your  
arms

Wherever you go, I'll be waiting here  
Anywhere  
With my heart in the palm of my hands  
Anywhere but here

Tonight I couldn't be anywhere else now  
Tonight I couldn't be anywhere

I'll be here with open arms
