She needs some room to breathe
Because she's suffocating
And she wants me to understand
So now I've got some time on my hands

She wants to miss me
She needs her time
To be away a while
And so do I now

This is all so new to me
Now I've got some room to breathe
So what am I gonna do today
One thing's for sure baby I won't wait
Maybe call a friend or two
Oh yeah that's just what I'll do
We'll talk about religion or life
Anything to get you off my mind

She wants to miss me
She needs her time to be away a while
And think about my smile
She wants to miss me
Oh she needs her time
And so do I
So go ahead and give me all the time it takes
You're worth the wait
And every time that you come around (I won't be down)
Listen to the sound that's inside of you
(You'll know the truth) that I miss you

She needs some room to breathe
Because she's suffocating
And she wants me to understand
She wants to miss me
She needs her time to be away a while
And think about my smile
She wants to miss me
Oh she needs her time and so do I so do I
I am waiting on the phone to ring
No not me I'd never do such a thing
