Andersson

I'll take your command, right out in the feilds  
I'm leaving my spirit when the oceans turns to sea  
I'm crossing the darkness when you want me to kiss  
you goodnight

I pray for your soul in my holy land, the earth is  
trembling across in devils home  
Im praying for mercy as the lightning controlling the  
sky

heaven is screaming, angels of hell  
Let light surround you  
With the flames from the heat of the sky don't ask me  
why

There's no time, power of pain walks triugh my window  
I've been there, since you've been gone blood of the  
tail was here

There's no way to go, I'm left here alone  
they placed me a timebomb with no exit way to go

The love from my heart turns to violence  
It's fadding away

I pray for our soul in my holy land, the earth is  
trembling like a cross in devils home  
I'm praying for mercy as the lightning coms rolling the  
sky

Captures by moonlight, stressed from the start  
Centuries carving, as the bird form the sky falling down  
arrows will fly

Candle light Show me the way, into the secrets  
Sacred hearts lie on the ground killed by the fortune

There's no time, power of pain walks trough my window  
I've been there, since you've been gone blood of the  
tail was here
