I wonder and I search  
Who is the man I always show,  
At my home or in the church  
Help me I want to know  
Could there be a difference  
That depends on where I am  
What I do will make sense,  
I'll show them what I can  
I don't want to wear a religious mask  
Prepare me to perform your task  
I don't want to be an actor  
What I want is to be real  
I don't want to be an actor  
Clean my heart so I can feel  
Your presence  
I'll be the one they expect me to be,  
I do the things I always do,  
But now I will be free  
Send me I want to go
