Everybody's on me  
Why don't you leave me  
Alone to where I want to go  
Away from here, away from home

I've got to get out of here  
The people, the place, the atmosphere  
This place is nowhere  
When I need a somewhere

Hey don't you push me  
Bettcha wanna go with me  
Got a f@#kin child here  
Someone you hold near

I've got to get out of here  
The people, the place, the atmosphere  
This place is nowhere  
When I need a somewhere

Everybody's on me  
Why don't you leave me  
Alone to where I want to go  
Away from here, away from home

I've got to get out of here  
The people, the place, the atmosphere  
This place is nowhere  
When I need a somewhere
