I can take your pain away if you tear down your fortress
of memory

I can take your pain away, you don't always need to be
strong

I can take your pain away, I know we have different
shoes

I can take your pain away, barefoot we will tear the
truth

You are the king of silence

You don't need one word to talk to me

All I know is we have sympathy

Close your eyes and lean your head on me

I can take your pain away if you find a remedy in me

I can take your pain away, you can take as much as you
want from me

I can take your pain away, we have a distance between
us

I can take your pain away, every time we can find the
clue

You are the king of silence

You don't need one word to talk to me

All I know is we have sympathy

Close your eyes and lean your head on me

You are the king of silence

You don't need one word to talk to me

All I know is we have sympathy

Close your eyes and lean your head on me

You are the king of silence

You don't need one word to talk to me

All I know is we have sympathy

Close your eyes and lean your head on me
