Going back to these origins  
The city is a natural scape  
Order in the details  
Confusion uproar in the whole  
In nature reality is selection  
The tool of critical intervention  
Fragmentation is the rule  
Unity is not taught in school  
You are an unnatural growth  
On a funny sunny street  
The city has forgotten you  
It's symbols of the past  
The meaning of it's state  
It's order of decay  
Stand now in a column  
And make the nature scene  
Standing now in columns  
Making the nature scene  
Making the nature scene  
Waiting to make their pay  
There is no resistance to  
The signs along the way  
Standing all in columns  
Waiting to make their pay  
Making the nature scene  
Waiting for the day  
There is no resistance to  
There is no resistance to  
Salvation means to count on you  
It just means to count on you  
Make the nature scene  
Making the nature scene  
Making the nature scene  
Making the nature scene  
Going back to these origins  
The city is a natural scape  
Order in the details  
Confusion uproar in the whole  
In nature reality is selection  
The tool of critical intervention  
Fragmentation is the rule

Unity is not taught in school  
You are an unnatural growth  
On a funny sunny street  
The city has forgotten you  
It's symbols of the past  
The meaning of it's state  
Its order of decay  
Stand now in a column  
And make the nature scene  
Standing now in columns  
Making the nature scene  
Making the nature scene  
Waiting to make their pay  
There is no resistance to  
The signs along the way  
Standing all in columns  
Waiting to make their pay  
Making the nature scene  
Waiting for the day  
There is no resistance to  
There is no resistance to  
Salvation means to count on you  
It just means to count on you  
Make the nature scene  
Making the nature scene  
Making the nature scene  
Making the nature scene
