Working for vacation, walking for meditation  
Watching television for as long as I want  
People got science but make no sense  
Still can't do anything for cutting out violence

When I think of something, it goes out to space  
Then it comes back in another shape  
We know we are not apes  
But we could make sweet seedless grapes

Feeling wrong 'cuz the days are too long  
Counting heartbeats 72 in a minute  
Feeling wrong 'cuz the days are too long  
Counting heartbeats 72 in a minute

Feeling wrong 'cuz the days are too long  
Counting heartbeats 72 in a minute  
Feeling wrong 'cuz the days are too long

I need to talk to an ancient Egyptian  
To know the transcription to read the prescription  
For the friction we've got or the options we'll have  
Maybe God only knows

Feeling wrong 'cuz the days are too long  
Counting heartbeats 72 in a minute  
Feeling wrong 'cuz the days are too long  
Counting heartbeats 72 in a minute

Feeling wrong 'cuz the days are too long  
Counting heartbeats 72 in a minute  
Feeling wrong 'cuz the days are too long

Feeling wrong 'cuz the days are too long  
Counting heartbeats 72 in a minute  
Feeling wrong 'cuz the days are too long  
Counting heartbeats 72 in a minute
