Knowing how to be nice
Coming in contact with the christ
Climbling up to the high
Jumping off, help me fly
Life is easy
Getting involved
Please, relase me
Night or day
Listen to me when I say

That
I'm the one who care
About you and everybody
Lay your faih in my hands
Trust on me baby
I don't care what you have done
I care about the now
I care about the future

Cause'
I'm the freedoms star
I'm the moon of the children
I'm the sun in your smile
The glory in your eyes
And no matter how far you go
I will always be there
There for you

Looking for the day
To recognize all that I've said
Words running out of my mouth
Flee away, back to the south
I am feebly
My legs start bent
Please be delftly
Now or later
Reflect to be greater

Search around the world
Never found what maked me heard
Loving to decide
Walk on, pass by

Looking around
Help me now
Don't let me drown
Up or down
Do what feels right

I'm the one who care
About you and everybody
Lay your faith in my hands
Trust on me baby
I don't care what you have done
I care about the now
I care about the future

Cause'
I'm the freedoms star
I'm the moon of the children
I'm the sun in your smile
The glory in your eyes
And no matter how far you go
I will always be there
There for you

Confidence creeping under my skin
Always could, never will
Don't wanna know, don't wanna do
Please god, give me clue
Driving faster
Falling of
Catch me master
Now or never
That is what matter

I'm the freedoms star
I'm the moon of the children
I'm the sun in your smile
The glory in your eyes
And no matter how far you go
I will always be there
There for you
