A cabriolet GTI there for the taking,
Fast and furious a joy ride in the making,
In seconds flat you're behind the wheel,
Ignition jumped it's a great steal.

[Chorus]

Impress your mates driving around,
Looking for talent
Cruising up around the town,
You get your girls 'n drive real fast,
To screams 'n' thrills how long will it last.

[Chorus]

Blue lights flashing the chase is on,
Pedal to the metal you're on the run,
You're in a skid out of control
Screams from the back car starts to roll.

Friends are all dead who is to blame,
In a mangled wreck life will
Never seem the same,
By the road side some children played,
Panic on their faces before being slayed

[Chorus]

Joy riding a joy for who
Cheap thrills leading to a kill,
Joy riding a joy for who not for those
Who's kids you kill,
Joy riding a joy for who
Doesn't matter who's blood you spill,
Joy riding a joy for who
Cheap thrills leading to a kill.
