-intro-

-chorus-

I'm living this fool's dream,
And when I wake, I wanna scream,
When I see, you aren't there,
I hear just whispers in the air.

-verse 1-

You all will say that this might be insane,
But I am sick and I need a cure for my pain.
You are the one solution for this disease,
And to get you, I'll pray down on my knees.

-chorus-

-verse 2-

I need you with me, so I can live my life,
To raise my childs, why won't you be my wife?
I really have missed you all this time,
We both did wrong but this, it is a crime.
