Stay away from me
I love you too much
Stay away from me
I love you too much

You seem to get in my bones
Until I can't control myself
I find that all my
Systems are gone
When you do it to me

I'd leave if I could
But you're loving too good

So stay away from me
I love you too much
Stay away from me
I love you too much

What's the use in crying
Whatever you sell
You know, I'm buying
You're sure keeping
A thing on me
That makes me
Love you so tenderly

Such a heavy blow
Until I can't get up and go

So stay away from me
I love you too much
Stay away from me
I love you too much

Stay away
