Now this is a story about my girlfriend Mary Jane.  
You ready mini-me? Ok.

Hello Mary Jane,  
I can't get you off my brain,  
You take me higher than a crane,  
You're so sweet like sugar cane,  
I keep on flyin...  
You make me fly like Air Jamaica,  
You make me sing like I need to take a,  
Come with me cause I need to bake ya,

Mary Jane!

Very Mary, quite contrary,  
Girl you must be my fairy,  
You give me wings like a canary,  
I'll shout so people can hear me,  
"Mary Jane I love you dearly!"  
I always want you near me,  
You make me see clearly  
Like Jimmy Spliff, I mean, Jimmy Cliff.

Mary Jane I love you so, I will never let you go,  
Mary Jane I need you so, I will never let you go,  
Mary Jane I love you so, I will never let you go,  
Mary Jane I need you so...

Roll it, Twist it, Grind it up. (x4)

My boyfriends name is Jay,  
Every day he sparks my brain.  
Guess I am the queen of Sheba  
Mary Jane every night I need her!  
In the club it's superrr,  
Johnny plays "Good morning sir!"  
I feel nice but don't get gas,  
Kid don't you know about the puff puff pass?

Hey! Mr. Tambourine Man!

Legalize like Amsterdam,  
I'm his dime, he says he loves me,  
Even when I've got the munchies,  
Mine is good, he don't come quick,  
So I suck his Buddha stick.

Roll it, Twist it, Spark it up. (x3)
