home man, hehe  
yea, hey!  
haha, lets turn this house into a happy home  
To all the homeboys who couldnt get they happy home  
Lets turn this house into a happy home  
As long as one of us got it, some of us got it  
Lets turn this house into a happy home  
You know what that is, i'll stay down for u too, hold on

Now we've been kickin it for quite some time  
Remained beside me, through my trials and this life of  
crime  
We done fought so many times I forgot to count  
I neva hit cha, not a coward, ratha leave your house  
Remeber back in December when we was tight?  
Sippin Alize and Crystal, whylin every night, in my  
bedroom  
Promised that I'd commit to you soon  
Tongue kiss me, every time you see me step inside a  
room, straight out the hood  
We promised to be good to each other  
Plus I love you so I know u gonna make a good mutha  
Just try ta understand if I change at times,  
It's only because i neva owned anyhting thats mine  
So im tryin you can stay wit mah momma, but keep the  
drama to a low  
Neva called da police  
I neva call u bitch or hoe  
We were all born hungry in this world alone  
Finally moved out mah moms house, and got a happy  
home

Chorus

Hap-py home (lets turn this house into a happy home)  
Hap-py home (finally made it out my moms mouse, and  
got a happy home)  
Hap-py home (turn this house into a happy home)  
Hap-py home, he

Born through hard times ghetto child of mine  
I wonda if u havta suffa for your fathers crimes  
To be honest its a hard road

Just keep ya faith in God, knowin you'll be scared  
though  
Look at him walkin and talkin  
A little child with my eyes and mouth  
Father watch out over lil seeds, help me guide them out  
Had to change my whole lifestyle  
Married my babys mamma, made her my wife now  
I'm tryin hard yall  
Maybe in time I'll be a betta man  
Watchin the olda couples handle it like, veterans  
Show me the meaning of forever, and together we ride  
If it would help our child grow then together we die  
Why, question my love its so easy to see  
Witout my family, all I'm left with is a shadow of me  
After all the arguments and the nights alone  
Now its time ta live a good life, inside a happy home

Chorus

All these problems got me gone  
We got a family of our own  
I just want a happy home (turn this house into a happy  
home)  
No one's made ta stand alone, I promise I wont do you  
wrong  
i just want a happy home (finally moved out mah moms  
house, and got a happy home)

Chorus

Hap-py home (lets turn this house into a happy home)  
Hap-py home (finally got ta live da good life, inside a  
happy home)  
Hap-py home (Turn this house into a happy home)  
Hap-py home (Finally moved out mah moms house,  
aand got a happy home)  
Happy home, hey, haha, turn this house into a happy  
home(echoes)  
As long as one of us got it, some of us got it  
Turn this house into a happy home
