My buddy Trouble Anna had a punk band named  
Bananas  
She's a tornado with teeth and she needs a place to  
sleep  
There's friendly ghosts below her belt inside her belly  
when she sings  
And Love and War are either / either or or / or  
And Love and War are either / either or or / or  
Under hot lights of open mic night  
She's with Christ against all the stupid Christians  
Bananas fell apart and Anna finally got her start  
Anna made out like a bandit  
And Love and War are either / either or or / or  
And Love and War are either / either or or / or  
Singing in her own strange laughing language  
She's with Marx against all the stupid Marxists  
Singing "Babies and Old People Look the Most Like  
Monkeys"
