when the Puerto Rican twin sisters introduced their
tongue twisters
my stomach and brain swam as one and the same
this one picked at my blisters while this one played
shell games with names
can't tell a fantasy suggested from a fantasy projected
from a fantasy neglected
rejected
I see the buzz between your face and name
this cocktail waitress has been kissing for tips
can't tell a fantasy suggested from a fantasy projected
from a fantasy neglected
I see the buzz between your face and name
when I bisect duality
Kurt Cobain lives
I see the buzz between your face and name
