I'm making the bed with you in it [x2] shut up just sit
still just a minute i'm making the bed with you in it
you've got that I'm-Archduke-Ferdinand-and-I-just-got-
shot face on weren't you born into a corner you know
your mind isn't your own I'm making the bed with you in
it [x2] you need to incubate just admit it I'm making the
bed with you in it you've got that I'm-tortured-with-
thorns-and-gore-forsaken-for-whose-sake on like any
one of a dozen pilgrims walking off into wintered
woods one zero / on zero / I'm making the bed with you
in it [x2] jellyfish piggybank pomegranate I'm baking
the meds with you in it you've got that I'm-a-woman-
climbing-from-an-idling-semi's-cab on carrying only
her pillow through dark parkingscape alone seeing the
one zero / one zero / one zero / one zero / one zero /
one zero / one zero / one zero / one zero / being the
one zero one is so much more than none than 2 could
ever be to one
