Oh, baby, I've been working overtime
I've been working with my stomach, digesting,
And with my eyes, I've been looking at you,
I've been touching you with my thumb,
I've been speaking to you, baby, using my tongue
I've been trying to tell you 'bout the world
Mm, 'bout the barbed wire
I've been trying to tell you
About the noises that you hear
Yeah, the machine-gun fire
I've been trying to tell you, baby
That you've got to come to me real close
I've been trying to give you my hand, baby
Before you go into the dark

Cause I even have not been his?
Baby, no, for quite some time
Oh... he has not even heard the sound
Since nineteen-something-and-nine
Anyway, he only does it for the money
(He only does it for the money)

(Hey)
Oh... (hey)
We try to use (hey)
His name is Bull (hey)?
And any way (hey)
To make you walk (hey)
With him, baby (hey)
And to show you (hey)
His strange place

I even have not been his?
Baby, for quite some time
He has not heard that sound
Since nineteen-something-and-nine

Baby, I want you
To come over here
For what it's worth
Use your little foot

To draw a line in dirt
He only does it for the money baby
(He only does it for the money)
He only does it for the money baby
(He only does it for the money)

(Hey)
Oh... (hey)
Makes me got him (hey)?
And to feel the pain (hey)?
But baby I was all in the know (hey)?
But I can walk out (hey)
In time I walked out

(He only does it for the money)
(He only does it for the money)
(He only does it for the money)
(He only does it for the money)
(He only does it for the money)
(He only does it for the money)

He only does it for the money baby
(He only does it for the money)
He only does it for the money baby
(He only does it for the money)
