I am pentagon  
Which side are you gonna be on?

Are you isosceles?  
Or is your angle 90 degrees?  
Are you dodecahedron?  
What plane are you resting on?

Your radial sides  
Can't get into the field of my eyes  
I'm on a parallel plane  
Can't decide if you're on the same

I am pentagon  
Which side are you gonna be on?

Either you're no square --  
A love rectangle will size that flare  
Polyhedron immutable sides  
We fit together on the left and the right

Pure conference  
Particular note  
An argyle thing  
With an angular coat  
There's no place in this make  
For a thing yeah of a particular shape

I am pentagon  
Which side are you gonna be on?

I am pentagon  
Which side are you gonna be on?

In a lateral space  
I wanna fit inside of your shape  
I'll be your parallelogram (yeah)  
(Yeah) with your waist (yeah) wanna be your man  
I'll be your round void  
I'll be your trapezoid  
I wanna be your trapped boy

(Yeah) I'm on the square (yeah yeah yeah yeah)  
Please let me be there

I am pentagon  
Which side are you gonna be on? (x4)

Ahhh I'm pentagon
