We wanna serve Jesus and live under his rule,
We wanna be christians but wanna stay cool,
So we play the music that's rocking this show,
Just be yourself and let the spirit flow.

When Jesus came into my heart I red the bible as a
start.
Started with Genesis, Adam and Eve and knew for sure
this is believe.
Found in church more rules to obey, didn't feel happy
to believe this way.
Why are their extra laws and rules, it makes my first
love cools.

People wanna be in control, making others slave of
their ideas.
But Jesus said I make you free, just only listen to me.

Today I only wanna hear his voice his holy word will be
my guide.
And who I am is what he ment so Jesus I follow You on
this ride.
