

Make-Shift Romeo "Feel Something"

Visit "[Feel Something](#)" on MotoLyrics.com

I know you feel like there's no way out sometimes
Everything just isn't fair and it's tearing you apart
inside
So what are we suppose to do
With everything we're going through
It's all on me and you

It ain't over
'Til it's over
Think it over
Think it over

[Chorus]

'Cause people got different ways of dealing
And we all got different ways of healing
Even though you may not like what you're feeling
At least you feel something (something)

Sometimes you know you feel like things don't go your
way
And sometimes you just can't deal
You want to throw it all away

So think about what we've been through
And everything we thought we knew
It's all on me and you

It ain't over
'Til it's over
Think it over
Think it over

[Chorus]

We've all been suffocated (suffocated)
And separated (separated)

Sometimes
(Sometimes)
Sometimes
(Sometimes)

Just like this overrated
It gets complicated

Sometimes
(Sometimes)
Sometimes
(Sometimes)

Ohhhh
Yeah yeah yeah

It ain't over
'Til it's over
Think it over
Think it over

It ain't over
'Til it's over
Think it over
Think it over

People got different ways of dealing
And we all got different ways of healing
Even though you may not like what you're feeling
At least you feel something (something)

People got different ways of dealing
And we all got different ways of healing
Even though you may not like what you're feeling
At least you feel something (something)

At least you feel
At least you feel

Something
(Something)
Something
(Something)
