When I woke up today
And I saw this place,
I knew there was something wrong.-

I need some help today,
Cannot get away from this pain inside,
Why?

I am going through some changes,
I don't know what is going on.
Something is happening to me,
Something is heppening to me.

Is it too late to save me from myself,
After all the damage that I've caused?
I wish there was some way that I
Could put me back The Way I Was.

When I woke up today,
And I saw your face,
I knew there was something wrong.

I need to get away,
From all this awful pain inside.
Tell me why,

I am going through some changes,
I don't know what is going on.
Something is happening to me,
Something is happening to me.

Is it too late to save me from myself,
After all the damage that I've caused?
I wish there was some way that I
Could put me back The Way I Was.
The Way I Was.

When I woke up today,
And I saw this place,
I knew there was something wrong.

Something is happening to me,

Something is happening to me,
Something is happening to me... (echo break)

It's too late to save me from myself,
After all the damage that I've caused,
I wish there was some way that I
Could put me back The Way I Was. [X2]

The Way I Was.
The Way I Was.
The Way I Was.
The Way I Was.

I am going through some changes,
I am just not The Way I Was...
