Why am I, always in the way
You just sat there mad at me and stared away
I thought we helped each other out
Guess not, since all we do is scream and shout
We don't need this in our lives, just the faith in One
God has shown us what is right, let His will be done
Now we moved ourselves along
Knowing deep inside He'll help us find the one
Because I've seen better days
Relationships are what make us stray
Invested so much time in knowing you

Was it worth the wait?
You've torn me from the love I've grown to know
I gave it all away... away
Why is it so hard to say,
"I can't be here no more, you caused me pain."
I thought we helped each other out
Guess not, since all we do is scream and shout
Always in the way
Always in the way
He has shown me that I don't need you here to stay
Space has helped us not to sink
With our lives with Him and the way we think
