"It's You And It's I"

Visit "[It's You And It's I](#)" on MotoLyrics.com

It's you and it's I, we're alone
It's you and it's I, we got no place to go
And I feel I could die if we don't
Find a place we're we could be alone

And hey, I've got an idea
We could break it through Ikea
We could steal ourselves a bed
And I could give you a head

It's you and it's I, we're alone
It's you and it's I, we got no place to go
And I feel I could die if we don't
Find a place we're we could
See right through each other
And feel right through each other
Forever, together
