"As You Wish"

Visit "[As You Wish](#)" on MotoLyrics.com

We started out as friends
Why did this have to end?
I only wanted you to see
Maybe it's not me
Maybe it's the way
You pretend
To know everything

That's just
What you wanted me
To think from the start
And its all my fault
That we
Will never be together
That's just
Why i wrote this song
And this is the part
Where you walk away from me

So come on let's try
And work this out
Let's start this over

We started out as friends
Why did this have to end?
Maybe its just me

That's just
What you wanted me to think
