The clock strikes 12
Just another day
Another day spent all by myself
I've got it all figured out
I shouldn't ask to be
Any less or any more
Just to be the perfect score

What is it that your waiting for?
It's just a game im sure
There's nothing I want more
Than to be your perfect score

(Deep breath)

I wanna be the one in school
That every guy should hate
The one that makes
The ladies drool
The girls just want a date
The one who talks
So sweet and smooth
Do you really want to wait?
Make the move or lose

(Big aliens)

I'll be your perfect score
