Winds are turning around me now
Something's out there I can feel it
Ears are burning from town to town
Now it's here and I don't fear it

Just stay calm there's no need for alarm
Use my charm and I won't be afraid
When they say to laydown staydown

Just withdraw there's no need anymore
Ignore the war and hope it goes away
When they say to laydown staydown
Get up!

Win lose draw don't take it anymore
Just let raw, don't give your soul away
When they say to laydown staydown
