

Malakai "Warriors"

Visit "[Warriors](#)" on MotoLyrics.com

There's going to be some trouble
When it begins
My skins all cold somehow
Yeah I'm ready now
Ready to face the jungle
Through what it brings
The rings being cleared right now
Here's your announcer

Warriors come out and play
Where are the Warriors
Who are the Warriors
Warriors come out to...

Play my conscience
An angel sings things
On my shoulder now
It says I'm better now
While over on the other,
I see those wings
As I focus in
It gets louder and Louder (and louder)

Warriors come out to play, warriors come out to play...
