Assalamualaikum dan selamat sejahtera kepada semua rakyat Malaysia!!

Actually, this directory is intended to accept any incoming files

from anybody who wishes to contribute something.

Every person who wishes to

put something here is welcomed to do so; just use the 'put' command and rename

the file with a word or sentence common to all

Malaysians. The Internet

system and Internet Relay Chat (IRC) have made

possible for us Malaysians to

interact with each other and there might be some other ways which make use

of electronic communication networks. Files in the ftp directories are free

to anyone; just as anybody should be free to put something here. Wishing you

all the best, having your hard time in colleges!!!)
