Whoever nerve get an ordinary day
Begin in such an extraordinary way
Where can you watch the sunrise
And be near enough to touch it

Or find yourself in unfamiliar surroundings
And yet have so many friends
Where can you walk amongst giants
And not feel small

Or you become king and conquer kingdoms
All in a day
Where can you feel the curve of the earth
And be soothed by it's wonders

Or be in the present in some stranger
And yet feel so close
Where can you mingle with the oldest races
And be right uphold

Where can your wishes come true
Apart get full there anytime
A place like no where else on earth
Malaysia truly Asia
