And you're the only person that can make me feel
alone
Just withdraw your eyes and you'll hear me start to
moan
I've never felt so lonely as when you're in the next room
I hope you come back in here, come back in here soon

Had your face in my eyes all weekend now you're gone
24 long miles but my car's broken down
He won't travel 3 and he can't travel 10
So when will we ever see you again?

And I've been so devastated
I've never felt more betrayed
Got a spring in my eye and a light in my step
I wasn't made to feel this way

Got your hair in my hands and your legs running to me
Should I lick the bath or should I wait till Tuesday
I'm sorry for the silence, I'm sorry for the noise
You know I'll make it up to you with a million steak
McCoy's

And how can you like me with this head and these
arms?
How can this shallow freak be accused of having
charm?
The way the earthquakes land when I blow my nose
How long can I be myself before you get up and go?
