On a Monday night I'm nothing  
On a Tuesday night I'm nobody  
On a Wednesday Thursday Friday night I'm sad  
Then the weekend comes to haunt me  
Of all the places I should be  
Minding me of the best times I ever had

So there's nothing wrong with being alone  
No need to call the doctor  
Sometimes people need to be by themselves  
And there's nothing weird about hating yourself  
When you've seen the hours I've spent  
Darkness comes and darkness goes  
Just like my good times went

Old and driving tired from straying too far  
My head wont give me a break  
And the rest is making my history  
I never seem to make the right decision anytime  
I need to crash this piece of shit into a tree that fits

So I don't know how to finish this song  
I'm happy now but for how long  
I'm a sad tune and I'll have to keep the tone  
Well, it's only a matter of time  
Before I feel like shit again  
I'm a happy army marching to defeat
