In the chapel of the roses
Everyday I'll say a prayer
And I'll wait for you at sunset
Till the day you meet me there

In the chapel of the roses
While the angels watch above
I will pray for your returning
Till you bring me back your love

Though the mighty organ is silent
I can hear our favourite hymn
And I feel you there beside me
When the twilight's growing dim

Each night I light a candle
And I'll say a sweetheart's prayer
In the chapel of the roses
Till the day you meet me there

So each night I light a candle
And I'll say a sweetheart's prayer
In the chapel of the roses
Till the day you meet me there
