Everyone's so ordinary
They're watching (the)world with blind eyes.
Can't you hear them talking funny,
While you recite the same lines?

(Chorus)

If the robots win, we'll have to listen to techno
Heck No! I'll Never Listen to Techno! (2x)

Every day you're working harder
Just trying to chase a dollar.
Can't you see they hold the leash?
You've gotta wear the collar.

(Chorus)

It doesn't matter what you see.
It doesn't matter what you read.
You're never gonna get it all.
They'll only tell you what you need to know.

(Chorus)

(Instrumental Break)

Everyone's so ordinary
They're watching (the)world with blind eyes.
Can't you hear them talking funny,
While you recite the same lines?

(Chorus)
