When I was down
An angel came to me
And she touched me inside
That woman set me free
Turned on the light
So I could see
That there was fire inside
And I could feel the heat

She's got the power, she gets me high
She can take a storm and make it shine
She keeps the spark burning over time
That woman's got electric love

Ooo, electric love
There ain't no medicine
That makes me fly
Like when I'm with my sweet woman
She keeps me so satisfied
And if we had no money
We'd still get by
And if the world should stop turnin'
Our love would be alive

She's got the power, she gets me high
She can take a storm and make it shine
She keeps the spark burning over time
That woman's got electric love
Look out

She's got the power, she's gets me high
She can take a storm and make it shine
She keeps the spark burning over time
That woman's got electric love

Whoa yeah
She gets me high, so high
Ooo yeah, she makes the stars shine
Burning all the time
That woman's got electric love

Electric love

Electric love
She's got the fire
She's got the fire
Electric love
Electric love
Electric love
