I was born on the dawn of a new society
And I feel lucky that my eyes could see
People standing up and being who they want to be
People made the music and the music made them free

And I was just a baby through the summer of love they
say
And I still feel it like it was today
And if the road gets rough I pick up my guitar and play
It's always been right by my side to help me on my way

And I don't need to worry 'bout tomorrow
Ain't anticipating what's to come
I don't need to worry 'bout the things I have not done
Long as I got rock and roll, I'm forever young

We can't always understand this world
Farther along we'll understand it all
The seventies looked like we all were headed for a fall
Those who listened hard enough could hear the
summer call

I was growing up through all of this
My first beer and love and my first kiss
You never learn the things in school, you learn by living
and going through
You taught me how to be myself, how can I thank you?

And I don't need to worry 'bout tomorrow
Ain't anticipating what's to come
And I don't need to worry 'bout the things I have not
done
Long as I got rock and roll, I'm forever young

Play a little now
Nicely

I don't need to worry 'bout tomorrow
Ain't anticipating what's to come
And I don't need to worry 'bout the things I have not
done
Long as I got rock and roll, I'm forever young

And I don't need to worry 'bout tomorrow
Ain't anticipating what's to come
And I don't need to worry 'bout the things I have not
done
Long as I got rock and roll, I'm forever young
Long as I got rock and roll, I'm forever young
Ain't it the truth?
