Baby can I have a moment of your precious time?  
So you and me can get it out just for a little while  
I'm gonna be straight up, not gonna lie  
'Cause I've had enough  
I've had enough of...  
You don't know everything you've put me through  
Just step aside  
Been blinded by the spotlight

You're no better than me  
You're no number one  
Baby, without you I see  
You're not at all what I thought you'd be  
Every time that I try you come along and pass me by  
Baby notice me, just for once  
For who I am not what you want

Break me down to build that legend in your own mind  
Sorry that I couldn't be another "yes man"  
Sit back and watch while you command attention all the  
time  
'Cause I'm fed up  
I'm fed up with...  
You don't know everything you've put me through  
Just step aside  
Been blinded by the spotlight

You're no better than me  
You're no number one  
Baby, without you I see  
You're not at all what I thought you'd be  
Every time that I try you come along and pass me by  
Baby notice me, just for once  
For who I am not what you want
