Imagine all the singular tastes gathered into one  
of total submission kneeling before the powers of  
libertinage  
Like the famous empress Theodora more women will  
become drained  
Some of them robbers, some slaves after coronation  
they all will plait  
Repulsed by the light they are searching for the  
greatest  
Speech inflaming their stunning heads  
Drained of their beings they are searching for the most  
Seductive messages to excite their souls  
Slithering women burning of desire  
Longing for tortures worst than burning in hell  
Filling their mature age with fantasy  
Degrading the flame of their own misery.  
Walking the path of sin filling their empty hearts  
With energy the poison moves on thee

Feeling emotions so extreme against decency  
And the whispering voice of Christianity  
Love is a splendid weapon swallowing a thousand  
more  
Sodomizing arena of assassination  
Death is evidence self controlled malevolence  
Control the whore archangel to demon stimulation  
Existem ainda idiotas que tomam imbecilmente  
Os professores sociais pelas divinas leis da natureza  
A accao desses idiotas que tiveram outrora a loucura  
de censurar  
So por si se tornara num merito aos olhos desse  
agente considerado Universal  
"The perfect hypothetical end for all the passengers  
experiencing intoxicating & suffering excursions  
throughout the lack of individual reflection."
