Another day of blood, night is full of screams and  
death  
Victims come in many forms, still all gasp a final breath  
Madman takes his aim, exhales soft barrels crack loud  
So many more targets to kill, to him it's not just a crowd

Sickness in his mind, rid the world of scourge  
Killing one by one, lead spitter continues to forge

No one left alive, cruel cleansing proceeds  
His mind it will not rest, fulfillment of these deeds  
Hatred grows inside, how many more will die  
By the thousands rounds explode, by the thousands  
bodies fall

Sickness in his mind, rid the world of scourge  
Killing one by one, lead spitter continues to forge

Squeeze the trigger, watch them fall, crosshairs  
trained on heads  
Single purpose, born to kill, ultimate death is bred  
Trained from birth, it's what is learned, eliminate all life  
Don't hesitate, lock and load, always first to fight

Spitting lead  
Spitting lead

Squeeze the trigger, watch them fall, crosshairs  
trained on heads  
Single purpose, born to kill, ultimate death is bred  
Trained from birth, it's what is learned, eliminate all life  
Don't hesitate, lock and load, always first to fight
