Subdued by madness reality severe
Pervading my mind, and my actions for years
Flashbacks of combat, now hinder the skills
Once possessed to gain victory through kills
Symptoms increase
Reliving fear, visions will not cease
Conflicts arise
Once on the field, now inside my mind
Lucid no more
Haunted by actions for life I endure
The past invades
Searing within, my soul is now decayed
Deemed unfit to serve and obey
Restraining dementia, through war I obtained
Shell of a man, I have become
Tolls of warfare, sanity has done
Now in sickness my life declines
Lunacy ruling... now ruling my life
Subdued by madness reality severe
Pervading my mind, and my actions for years
Flashbacks of combat, hinder the skills
Once possessed to gain victory through kills
Symptoms increase
Reliving fear, visions will not cease
Conflicts arise
Once on the field, now within my mind
Lucid no more
Haunted by actions for life I endure
The past invades
Searing within, my soul is now decayed
Symptoms increase
Reliving fear, visions will not cease
Conflicts arise
Once on the field, now within my mind
