Wide open bullets fly, victims strewn upon the scape  
No need to justify, bite the lead accept your fate  
Trying to survive, in a world that's scared  
You are next in line, head lined up in crosshairs

Target rich environment  
Strikes the mark, feel death's intent  
Target rich environment  
Strikes the mark, feel death's intent

Order of the day, kill the impending mark  
Neverending slay, never can you drop your guard  
Bodies pile up, living death, desensitized  
Man is beaten down, world should be euthanized

Target rich environment  
Strikes the mark, feel death's intent  
Target rich environment  
Strikes the mark, feel death's intent

Crushing foes, stomp you down, bloody boot  
Cap your head, face is cold and turning blue  
Tear your ass, ripped apart and broken down  
Snap a neck, head removed, you make no sound

Raise the body count, it will never end  
War, it will rage on, target rich environment

Death is vilified, disappear without a trace  
World is torn apart, killer that has no face  
Can never go back, society can't escape  
Who is next in line, always to eliminate

Target rich environment  
Strikes the mark, feel death's intent  
Target rich environment  
Strikes the mark, feel death's intent
