The rumble of the gates of Daath blurs my voice  
And the scream of Silence  
Terror then Abyssic Ecstasy  
God's breath on my back

I was Them  
I am Them  
I will be Them  
I am Them

My fire has helped me to find the way  
The meaning of my cursed life again  
This is Magic.  
The fire of enduringness  
My Gods have grown with me

I was Them  
I am Them  
I will be Them  
I am Them

I, Unspoken Scream  
Archaic Ayss  
Occult Spirit  
Untamed Titan risen to gaze at the skies

Promethean Fire!  
Rebellious will that arises from the divine womb  
Faith from the elemental magma

(217) Sigma-eta-theta Seth!

(66) Opus Magum  
(00) Double Void

I call forth the glorious ancient God Sutekh  
Typhonian storm of chaos  
Wind of Death  
Annihilation  
Scent of apostasy  
Let me rejoice in blasphemy

I call forth the glorious ancient God Sekhmet  
Lion-headed goddess of revenge  
Aberration  
Queen of pestilence  
Slaughter of cursed enemies

Haur Auaur  
Schenaschock - Uruam  
Urta-tan - Urta-Tuuunothath  
Herechem  
Edoch-Hat  
The words that open the gates  
Of the reign of demons of blood

7 (7 7) - The totality of creation  
Earth's escape  
The inferior power  
The Dragon's head  
The serpent  
The Lion  
Typhon the overcoming!
