Turn me over baby-wont you turn me over oh yea
Turn me over woman can't ya' turn me over oh yea
The world's my prison baby-The world's my prison
The world's my prison!!! The world's my prison yea

(now listen to the bassist)
I've heard your logic-And I've seen it in action
What more are friends for-The losers conquest
So I'll go out dancing with the ladies
Jealousy erases and laughs at me

No room to spread my wings
Winter bites!!!
No room to spread my wings
And tell my friends of love(repeat)

Turn me over baby-wont you turn me over oh yea
Turn me over woman can't ya' turn me over oh yea
The world's my prison baby-The world's my prison
The world's my prison!!! The world's my prison yea

I carry pictures-mental visions
You let me down-And I owe you one
A lethal dose could break all the ties that bind
But I'm yet to show you all my light-

No room to spread my wings
Winter bites!!!
No room to spread my wings
And tell my friends of love(repeat)
