Verse 1: You gave me heartache
I gave you love
I should've walked away
But I stayed because
I knew my destiny
And it was you
So I tried my best
To be true
But some time ago
Like you I strayed
I regret it so much
I wish I stayed
And like the rest
You were gone
And I'm left sitting here
Singing this song

Chorus: Although we're over
And were apart
There's still a place for you
Inside my heart
You promised me love
I said I'd stay true
And in the end
I'd choose you

Verse 2: We messed up early
Doomed from the start
By thinking we'd never
Be apart
But they all say
A good thing must end
But I had to hold on
So I stayed your friend
And just as I turn away
You're in my face
Not knowing
You'd been replaced
But if it came down
To him or you
In the end

I'd still choose you

Chorus: Although we're over
And were apart
There's still a place for you
Inside my heart
You promised me love
I said I'd stay true
And in the end
I'd choose you

Bridge: I chose you then
And I choose you now
Cus you were there for me
When no one was around
And sometimes in life
Things aint what they seem
Just like I'd still choose you
You'd still choose me
So we'd better right our wrongs
Before hope is gone
You're still a part of me
I loved you all along
And If you think I'm lying
To prove I'm true
In the end
I'd only choose you

Chorus: Although we're over
And were apart
There's still a place for you
Inside my heart
You promised me love
I said I'd stay true
And in the end
I'd choose you
