The voice of temptation whispers at your ear  
The sound of fear upsets your heart  
The innumerable shadows you can see change into  
different shapes around you -- around this gloomy  
place  
The voice of temptation whispers at your ear -- the  
sound of fear ...  
Spread your invisible wings at the moment you fly away  
This false jail collapes and takes in the stillness around  
you  
Break out from the dark  
Release your dark mind  
And awake -- the end of agony  
Spread your invisible wings at the moment you fly away  
This false jail collapes and takes in the stillness around  
you  
Spread your invisible wings at the moment you fly away  
This false jail collapes and takes in the stillness around  
you  
-- The scream suddenly becomes wind  
Spread your invisible wings at the moment you fly away  
This false jail collapes and takes in the stillness around  
you  
-- The sorrow suddenly turns into kindness
