

Cinder Road "One"

Visit "[One](#)" on MotoLyrics.com

I, I'm always surrounded by
Her faith, faith, oh
It takes me beyond this time and place
Where I'm always safe

She's the only one
On the darkest night, a star shines bright
And there's only one with an angel's glow
I know she's the only one

Peace of mind
And never I walk through life alone
And I know, oh, you know that I'll be alright
Believe, I'll always believe

She's the only one
On the darkest night, a star shines bright
And there's only one with an angel's glow
I know she's the only one

My heart and my arms are open wide
Forever and ever and I
Will always be there right by your side
Guided by the light you shine

She's the only one
On the darkest night, a star shines bright
And there's only one with an angel's glow
I know

She's the only one
On the darkest night, a star shines bright
And there's only one with an angel's glow
I know she's the only one, oh, oh
She's the only one, yeah, yeah, yeah, oh, oh
